Embracing Change

Sand and Gelatin Urns for Pets

The Passages Sand and Gelatin Urns are produced using sustainable materials to create an attractive and environmentally–friendly alternative for families. Each urn has a real beach sand or crushed quartz exterior.

When placed in water, the Passages Sand and Gelatin Urns are designed and engineered to float briefly before sinking. The time each urn takes to sink will vary depending on the weight of the cremated remains and local water conditions. Once placed in water, the urn will break down within three days. When buried, the urn will biodegrade in three months.

Each urn includes a water–soluble bag and is shipped in a box with custom protective packaging that provides families with a convenient, discreet, TSA–compliant option for transportation.

Oceane, Quartz (White) Oceane, Sand
Large: 7.25" Dia x 9.25"H (125 Cubic Inches)
Medium: 5.75" Dia x 7.25"H (67 Cubic Inches)
Mini: 4.75" Dia x 5.5"H (40 Cubic Inches)

Round, Sand with Kittens
4.25" Dia x 4.25"H (19 Cubic Inches)

Himalayan Rock Salt Urns for Pets

The Himalayan Rock Salt Urns are individually hand–crafted by skilled artisans from deposits believed to be the purest on earth.

As a result of the natural qualities of the Passages Salt Urns, each is unique in both color and finish. The urns will dissolve within 4 hours when placed in water.

Large: 8" Dia x 9.5"H (220 Cubic Inches)
Medium: 6.25" Dia x 8.5"H (90 Cubic Inches)
Mini: 4" Dia x 6.75"H (60 Cubic Inches)
Keepsake: 2.5" Dia x 4"H (3.5 Cubic Inches)

Federal regulations must be followed when placing any of these urns at sea (no closer than 3 nautical miles from shore).
